Dear Dr. Henney,

Please ban antibiotic use in animal feed!

The small increase in growth + profit for a few farmers comes at the expense of public health itself. The danger of drug-resistant diseases grows exponentially with this unnecessary and short-sighted practice. We must not undo the work of medical researchers by over-using antibiotics in non-medical uses. Please do exert the power of your office to take a stand that will be applauded for its integrity and foresight. Don't cave in to "special interest" pressure by those who wish a bit of extra profit.

Thank you,

Lark Hammond
